

THE WORLD IS CHANGING AND SO ARE LIBRARIES

3

WE DON'T LIBRARY LIKE WE USED TO!

The world is changing quickly and so are libraries.

New technologies, new communications, new competitors, new models of service, and ever-expanding customer expectations and interests all add up to the need for libraries to adapt and innovate.

The Las Vegas-Clark County Library District Foundation attracts new resources, cultivates partnerships, and invests in cutting edge learning opportunities that contribute to the economic, education, and social well-being of all.

We also launch service innovations that target urgent community challenges related to school success, jobs, small business, small business development, and the digital divide.

5

PEOPLE

665,882 active library card holders in FY2015-2016
